Tenterfield Family Funerals was established in 2015, with Glen and Lisa Curry and Troy and Robyn Hillier's belief that Tenterfield should be offered alternatives in their time of need – the passing of a loved one.

The two families had long discussed the desire to offer Tenterfield and district another option, one where dignity and respect are always at the forefront and backed up by a can-do attitude and the desire to exceed our client's expectations, whilst guiding them through the "Celebration of the Life" of their loved one.

Tenterfield Family Funerals are leading the way in the funeral industry through renewal and continual investment, by offering a level of service that others can only aspire to and by offering modern services that are uniquely designed by our young and enthusiastic team, not just copying what others do.

Understanding your needs is an important element of what we do. We want to offer you choices in every part of the ceremony.

Those choices are yours; they offer real options, and we can cater for any need no matter how unique. We can help make the farewell as memorable as you wish, and we go to great lengths to ensure your wishes are met.

We offer continuous 24/7 availability. We are always there if you need us. We offer comfort and strength at a time which can be overwhelming and confusing. We can meet at a venue of your choice – be it in your own home or our funeral home and we offer you the choice of male or female funeral directors.

Our 2020 built ultra-modern and impeccably presented funeral home, mortuary and chapel facilities are located at 60 Polworth Street Tenterfield and they are owned by the Curry & Hillier families. Inspection of our premises is always welcomed and invited.

Transportation of your loved one will only ever be in a purpose-built vehicle, normally owned by Tenterfield Family Funerals. If we use a third party for long haul transfers, the company will have to not only meet our high standards for their transfer vehicles, but staff, presentation, handling, dignity and respect alike.

The Crematoriums we use are
